Education

Aulab Hackademy, Bari, Italy

07.2021 – 09.2021

Professional Web Development full-time course, designed to train the developer of tomorrow.

This program covers: building an end-to-end web application, with a focus on code deployment, storing data using MySQL, creating a mobile responsive site, using the agile methodology and scrum framework, and much more.

Propulsion Academy, Zurich, Switzerland

11.2020 – 02.2021

Professional academy designed to give people new professional opportunities, unleash their power to build disruptive technologies, and in so doing fill companies' need for software development expertise.

Hotel and Restaurant School Diploma, IPSSAR, Naples, Italy.

09.1997 – 07.2002

Full-Stack Projects

Aulab Projects

- **Presto** – Web Announcement App similar to Subito.it. Features implemented: image resizing, multi image upload, watermarks, search full text, registration, login, contact form, photos analysis by **Google Vision API**, revisor page with progress bar to displaying the data from Google API, multi-language.
- **Blog** – Web Blog App is a Laravel project developed during the Aulab Academy. Main UI functionalities are login, registration, CRUD of a published article.
- **Dentist** – Web Dentist App. Main functionalities are login, registration, home page, detail pages, contact page, product page, services, routing.
- All projects: were implemented with Laravel 8, Laravel Fortify, MySQL, CSS, Bootstrap, Git, Scrum Framework, JS and some with JQuery, Spatie Media Library, Dropzone.js, Laravel Scout.

Propulsion Academy, Zürich, Switzerland**11.2020 – 02.2021**

- [Motion](#) – Social media Full-Stack project independently performed, where users are enabled to follow, submit a friend request, create and like a post.
- [Luna](#) – a restaurant review application where users can find, rate, and comment on local restaurants.
- [Student Performance Tracker](#) – an application to be used by Propulsion Academy to track students' performance and grades.
- All projects: for **Frontend** used React, Node, and Redux. For **Backend**, used Django, PostgreSQL and REST Framework. For **Source-code management**, used GitLab. In **deployment process**, used Docker.

Free Code Camp, Code Academy, Udacity**09.2020 – 10.2020**

Two months completing modules on HTML5, JavaScript, CSS3 and Python3.

Spoken Languages Italian, English, German.
